**COMPREHENSIVE LAND USE PLAN:** Town Administrator Christopher Todd stated that the Comprehensive Land Use Plan (CUP) is an essential tool created through data analysis, community engagement, and policy direction. The purpose of the CUP is to help inform the elected body and staff as to the direction the town is wishing to hear regarding its land use policies, practices, and ordinances. The Sawmills CUP has been created using a citizen committee, the planning board, public survey, staff analysis, and citizen engagement.

The Town of Sawmills has a CUP which was adopted in 2005, and requires an update. These plans should be updated approximately every ten (10) to twenty (20) years based on goals and direction of the Town. The current CUP was reviewed in a different economic time period and additionally the Town's demographics have changed.

The draft CUP has been created with the help of the Western Piedmont Council of Governments and has been reviewed by both the Town Administrator and the Town Attorney.

Clay Wilson made a motion, and Rebecca Johnson seconded, to table the matter until the regularly scheduled February 19, 2019 Council Meeting. All were in favor.

**DISCUSSION:**

**NEW TOWN HALL:** Town Administrator Christopher Todd stated that the Town of Sawmills had a new town hall designed in 2008, to be located on the property currently used by the Sawmills Farmers Market. After the design was modified in 2010, an estimated project budget was one million seven hundred six thousand three hundred seventy-four dollars (\$1,706,374.00). There would be approximately an additional three hundred thousand dollars (\$300,000.00) in costs associated with furniture, computers and other internal needs.

The new town hall design included a larger council chambers for public meeting, a drive through window to receive payments, and a community room.

In order to prepare this item for budget discussion, new updated cost estimates would be required. Based on current and similar project costs, staff estimates the total project to currently be between three million dollars (\$3,000,000.00) and three hundred five thousand dollars (\$3,500,000.00). That estimate includes both construction and other needed items.

No Council action was taken.
