DISCUSSION:

AIA GRANT PROJECT PROPOSAL: Town Administrator Christopher Todd stated that The Asset Inventory and Assessment (AIA) grants were created in Session Law 2015-241 in the changes made to NCGS 159G, to broaden the use of grant funds to encourage water and wastewater utilities to become viable and more proactive in the management and financing of their systems. Town staff is proposing to partner with the Western Piedmont Council of Governments (WPCOG) to apply for two (2) AIA grants to create a digital mapping interface and inventory. The systems would be comprised of data collected in the field, as-built surveys, and historic map records. WPCOG staff member, Tom Bell, gave a presentation on the software the would be used.

The public works department would be able to use this system to locate all of the features of both systems to a sub-meter accuracy. This would allow for public works employees to respond faster to water leaks and possible sewer problems. In addition to the use found by the public works department, this system could be used by office staff to track water leak locations, code enforcement cases, and other work being conducted around the Town, this system would allow the office to better access information that could be applied to grant applications, the annual budgeting process, and long range budgeting/planning.

The projected cost for the water section is estimated to be eighty-four thousand two hundred nine dollars (\$84,209.00) and the wastewater section being fifty-one thousand one hundred seventy-two thousand dollars (\$51,172.00). However, if the Town is to receive both grants there will be a cost savings due to some overlapping in the projects, which moves the cost closer to one hundred thousand dollars (\$100,000.00). The AIA match is five percent (5%) for the Town.

The annual cost to the Town to maintain, operate, and update the system would be approximately five thousand dollars (\$5,000.00), which would include a contract with the WPCOG to host the data, the necessary telephone data services for field works, and licenses to operate the software needed to update and view the system. The grant would cover the first year of these costs.

Reed Lingerfelt made a motion, and Keith Warren seconded, to apply for the AIA water grant. All were in favor.

Joe Norman made a motion, and Reed Lingerfelt seconded, to apply for the AIA wastewater grant. All were in favor.

PARKING AND TRAFFIC TOWN ORDINANCE PROPOSAL: Town Administrator Christopher Todd stated that town staff has been made aware of areas around the Town, including, but not limited to Cherokee Court, where the use of public right of way for parking has encumbered the use of the right of way. Town Administrator Christopher Todd worked with Town Attorney Terry Taylor to draft a proposed ordinance which is believed to better define the most appropriate use of public right of ways.

Joe Norman made a motion, and Keith Warren seconded, to adopt the Parking and Town Ordinance Policy. All were in favor.
